

# Adjustable Scent Diffusing System **AirQ1100**

The Air-Q 1100 system uses Prolitec's patented technology to diffuse fragrance and odor treatment products into the air.

## Technical Characteristics

Reference : Air-Q 1100  
Type : 1 head nebulizer  
Diameter of particles : Typically less than 1  $\mu\text{m}$

## Power Input

Input : 100-240 VAC / 0.6 A  
Frequency : 50 / 60 Hz  
Protection : Switching power supply  
Internal Power : 12 VDC / 1.5 A

## Dimensions

Height x Width x Depth : 394mm x 340mm x 172mm  
Total weight : 5.8 kg

## Performance

Up to 4,250 m<sup>3</sup> served.  
Programmable start & stop times  
50 adjustable output settings  
Top output location.

## Wall Mounting Mechanism

Built in mounting holes  
4 orifices – 254mm x 375mm  
Mounting screws included

## Cartridge

One 1250ml cartridge containing  
fragrance and odor treatment products

## Enclosure

Fiberglass with swinging door, NEMA 4

## Safety Approvals

FCC part 15  
CE & ROHS compliant

## Environment

0°C to 40°C operating temperature  
85% or less operating relative humidity

## Accessories

Soft silicone hose and injector tube for distant output  
Padlock with key

Made in USA
