

Ionair Germ Reduction Unit

Germ Reduction Unit

Model	100737	100742	100747
Max Room Volume	15 m ³	25 m ³	40 m ³
Power Consumption	10 W	10 W	10 W
Ionair tubes	1 x type D	1 x type E	2 x type E
Weight	3.0 kg	3.1 kg	3.5 kg
Dimension (mm)	L 550, B155, H 130	L 550, B155, H 130	L 610, B 155, H 200
Voltage	230V / 50Hz / 60Hz		
Ionization Control	manual with 100779		
Installation	wall or ceiling mounted		

Application

In all areas of food processing with a de-centralized air treat system, e.g. in areas where meat, fish or other food is processed, packaged, stored or cooled.

The ionair fresh air system

Can be effectively used to eliminate odors on produce or transfer of odours, to prolong freshness and to reduce the level of airborne germs, a beneficial effect for quality assurance in the food industry.
